

Hepatitis Free Pahang Volunteer Terms & Conditions

- I agree to participate in this Hepatitis Free campaign for Hepatitis Free Pahang Society (HFP) and hereby authorize HFP to use my name, and other details whether it be for print, broadcast or electronic media including, radio and television broadcasting and exhibition for this campaign purposes.
- In case if I am providing any incorrect information or concealing/withholding any information from the HFP, including without limitation incorrect declaration of Information relating to this campaign, shall entitle HFP to disqualify my participation without any further intimation.
- I understand that I will receive no monetary compensation for the rights granted herein. I understand that all ownership rights belong to HFP.
- If by reason of my statements and actions on this campaign or materials furnished by me for the campaign, there is any claim or litigation involving any charge by third parties of violation or infringement of their rights, I agree to indemnify and hold harmless HFP from any liability, loss or expenses arising from such claim or litigation.
- HFP shall not be responsible for any claims arising out of any failure(s) which is beyond the reasonable control of HFP. Without limiting the generality of the foregoing, HFP shall not be responsible for any claims arising out of technical failures before, during or after the completion of the Campaign
- HFP reserve the right to extend, cancel, discontinue, prematurely withdraw, change, alter or modify this Campaign or any part thereof including the eligibility criteria, the Terms and Conditions and gratification at their sole discretion at any time HFP may use subcontractors or 3rd party vendors to execute certain tasks associated with this Campaign

Who We Are

About Us

The Hepatitis Free Society is a not-for-profit organisation which provides free screening to the residents in each state in Malaysia for hepatitis B or C

Hepatitis Free Pahang works to improve health and social outcomes for all residents in Temerloh-Mentakab, Kuantan and Bentong-Raub who are at risk of, or living with hepatitis B or hepatitis C.

We pay particular attention to those groups which are at higher risk of infection or have a disproportionate burden of chronic disease.

We are dedicated to making Pahang free of hepatitis

Hepatitis Free Campaign

PERSATUAN MEMBASKMIKAN HEPATITIS NEGERI PAHANG (HEPATITIS FREE PAHANG SOCIETY)

Registered with the Registrar of Societies, Malaysia (Registration number: PPM-014-06-01112016)

HEPATITIS FREE CAMPAIGN.

Prevalence: *Hepatitis B (HBV, B型肝炎) and Hepatitis C (HCV, C型肝炎) are highly prevalent in Malaysia and in Pahang. It is estimated there are about 250,000 adults who are HBV carrier (prevalence rate 1.5%; children are relatively free of HBV because of vaccination which was introduced since 1989) and another 400,000 people have been infected by HCV (prevalence rate 2%).*

What are the health consequences?: *Untreated, both HBV and HCV will lead to chronic liver disease/cirrhosis (CLD, 肝硬化) and liver cancer (HCC, 肝癌). Each year in Malaysia, about 1500 people died of CLD. Globocan12 [1] estimated another 1750 people died of liver cancer, the 4th most common cause of cancer death in Malaysia after Lung, Breast and Colon.*
ELIMINATE HEP C NOW. JOIN US!

More about Hepatitis: Access to treatment ...

As a result of advances in medical sciences in the past decades, both HBV and HCV are now treatable; HCV in particular is curable with modern Direct Acting Anti-Viral (DAA) therapies. Yet, in spite of being an upper middle income country, screening services for HBV and HCV in Malaysia remain under-developed, and access to modern anti-viral therapies is even more limited.

There is an urgent need for community leaders and individual concerned citizens to mobilize local communities in Pahang to respond to and address Hepatitis health. *We must all come together to galvanize our local communities to recognize this health issue, and to demand and use screening and treatment services to make Pahang free from Hepatitis B and C.*

JOIN US. Be part of the campaign. The physician's name will be listed on Hepatitis Free website wall of honor to recognize his or her commitment to be part of the Hepatitis Free Campaign in our community

How?

Sign up as a collaborator with Hepatitis Free Campaign by completing the form. You will help us to have a more complete resource guide for those living with Hepatitis B and/or C in Pahang. Thank you for your commitment to the health of Pahang community!

Join our free screening program!

Screen patients and subsequently follow up treatment for your patients

Hepatitis Free Pahang will organize the necessary training and provide resources at zero cost to you

Please join our network of providers by filing out the sign up form!

Name of the provider's organization or clinic or pharmacy (as per registration)
